## Overview

---

### What is a 100kW Solar System?

A 100kW solar system is a large capacity commercial solar system that is best suitable for large manufacturing units or businesses with high energy usage. Similar to other capacities solar systems, this 100kW solar system includes solar panels, an on-grid solar inverter, and other solar accessories.

### How much does a 100kW Solar System cost?

The cost of 100kW solar power systems varies. On the lower end, you might expect to get Chinese inverters such as Sungrow, Growatt, JFY, Goodwe etc. and Chinese (lower-tier) panels such as Hannover, Munsterland, ZN Shine etc. You might expect to pay \$115,000.00 for such a system.

### What is a commercial solar battery storage system?

The commercial solar battery storage system is loaded with cell modules, PCS, photovoltaic controller (MPPT) (optional), EMS management system, fire protection system, temperature control system and monitoring system. The system configuration is modular, support multi-machine parallel, plug and play, easy to install and maintenance.

### What is a 100kW solar package?

Our 100kW solar package provides steady and reliable power for every part of your business, with tier 1 solar panels in a massive configuration and a serious 100kW solar inverter.
