

120kW Photovoltaic Container Used in Resort

Overview

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

Are hotels investing in solar power plants?

More and more modern hotels are investing in the construction of their own solar power plants. Avenston designs and builds solar energy solutions for hospitality companies. Our solar power plants are installed on the roofs and facades of hotels and provide clean and cheap electricity.

What is HJ mobile solar container?

The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with highly efficient folding solar modules, advanced lithium battery storage, and smart energy management.

Are solar power plants a good investment?

On-grid, off-grid and backup solar power plants are used in the power supply systems of hotels, suburban recreation centers, boarding houses and sanatoriums. Investments in these systems significantly reduce the cost of electricity, which was previously purchased from other companies, and allow significant savings.
