140m solar panels

Overview

What is a 12V 140W solar panel?

Our high quality monocrystalline 12V 140W solar panel is suitable for many applications and can work effectively in both sunny and overcast conditions. It is ideally suited for a motorhome or large caravan.

How do I choose the best solar panels?

Verify that the panels are at the optimal angle and orientation for your location. Solar panels are heavy and fragile. Always lift panels with proper technique to avoid injury or breakage. Using a lifting team or mechanical aid would also be helpful when handling large panels.

How to install solar panels?

Connecting the electrical system is an important step in solar panel installation. Depending on your design, Start by wiring the panels together in series or parallel. Now, connect the panels to the inverter. It converts the direct current (DC) electricity generated by the panels into usable alternating current (AC) power.
