15kW Solar-Powered Container for Community Use

Overview

What is a 15kW solar power container?

15KW Solar Power: This reefer container is equipped with a 15KW solar power system, which allows it to operate efficiently without relying heavily on external power sources. It helps reduce electricity costs and ensures that your frozen goods are stored in an eco-friendly manner.

What is a 15kW solar power frozen food cold room 20ft reefer container?

The 15KW Solar Power Refrigerated Frozen Food Cold Room 20ft Reefer Container is a state-of-the-art refrigeration solution designed for the storage of perishable frozen food in a sustainable and energy-efficient manner.

How termodizayn solar-powered container type cold storage works?

You can store your products 24/7 regardless of the grid power anywhere you like with Termodizayn solar-powered container type cold storages. With container type cold rooms operating with solar energy, you can easily solve cold storage problems and post-harvest loss problems in perishable foods such as fruits, vegetables, meat and meat products.

How does a solar-powered storage room work?

The cold energy is sent to the storage room using an ultra-low power consumption pump. A heat exchanger and a control system guarantee reliable cold transfer and air distribution to the storage room. With the solar-powered Cold Room, different products can be cooled down independently of any infrastructure using only the sun's energy.
