20-foot folding container for research station

Overview

What is a 20ft foldable container?

The 20ft foldable container is a brand-new temporary building with a simple and elegant appearance design and a steel frame, which is full of modern fashion sense. It not only provides a multi-functional space but also can be folded and transported on a large scale, which saves transportation costs as well as reduces storage space.

What is a 20ft flat rack container?

The 20ft Flat Rack Container is a specialised container for the storage and transportation goods with unique dimensions that cannot fit inside a standard container. The end walls fold down flat, meaning the empty units can be shipped together more efficiently. Available in: 20ft and 40ft sizes.

Can a foldable container be used as a prefabricated building?

Using A foldable container as a Prefabricated Building for temporary site office/accommodation has a huge advantage of convenience and space saving. Compared with normal site office construction, there is cost saving for time, labor, transportation and warehousing convenience.

What are the advantages of a foldable container?

Compared with normal site office construction, there is cost saving for time, labor, transportation and warehousing convenience. The foldable container is movable with crane or forklift hence better accessibility. Installation and dismantling is also very fast and can be constructed within 25 minutes.
