

# **20kW Smart Photovoltaic Energy Storage Container Cooperation**

## Overview

---

What is a livoltek 20kW Energy Storage kit?

The Livoltek 20KW Energy Storage Kit is a cutting-edge energy storage system featuring a 20kWh Livoltek lithium battery for efficient storage of excess solar production. Its inverter boasts 100% three-phase unbalanced output capability, adapting seamlessly to diverse load demands.

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is a mobile photovoltaic system?

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container technology.
