300 kWh energy storage inverter

Overview

What is a 300W power inverter?

A 300W power inverter, like the Geloo 300W, converts DC power from your car (12V) to AC power (110V). It provides 300 watts of continuous power and 600 watts of peak power, making it suitable for charging various electronic devices such as laptops, lights, TVs, and more.

What is included in a complete 300KVA solar power plant?

A complete 300kva 300kW solar power plant includes the following configurations: Optional solar mounting support, PV combiner boxes, and cables. PVMARS provides a complete turnkey solar energy storage system solution. After we complete production, the system delivered to you can be used immediately after connections are made.

What kind of battery does a 300kW solar plant use?

The gel battery of this 300kw solar plant is designed with 180pcs 2v2000ah batteries with a total capacity of 720kWh. In addition, PVMARS also offers lithium battery options. If your installation location is limited and you want more power, our small-volume 720kWh lithium battery is also an excellent choice.

How much does a 300kW solar power plant cost?

300kW solar power plant costs US\$204,779 – Gel battery design. (Valid for 30 days). Note: If you need a quote for lithium battery design, please contact solar@pvmars.com to obtain it. Below are the product parameters and pictures of the 300kw solar plant. Strong anti-cracking, heat spot protection
