

# **300 kWh energy storage solution**

## Overview

---

What is a 300 kWh battery system?

300kWh battery system is medium and large-scale energy storage solution, widely used in industry, business. For example: building groups, pumped storage power stations, power auxiliary energy storage, microgrid systems, data center backup power, waterpower generation energy storage and so on. how can solar energy be stored?

.

What is Sunway ESS battery energy storage system (BESS)?

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.
