

# 300wh power station in China in Cape-Town

## Overview

---

Where is powerchina located in South Africa?

POWERCHINA has also been engaged in the construction of various green energy projects in the country. The 100MW Redstone concentrated solar thermal power plant is located in the Northern Cape province of South Africa and is the country's largest of its kind.

Where is South Africa's largest solar power plant located?

The 100MW Redstone concentrated solar thermal power plant is located in the Northern Cape province of South Africa and is the country's largest of its kind. The project employs tower solar thermal technology with a total mirror area exceeding 1 million square meters.

How much power does South Africa's power plant deliver?

In recent days, the construction progress of the plant has been accelerated, reaching several important milestones. Upon completion, it is estimated to deliver around 480 gigawatt-hours of electricity to the grid each year, providing stable power supply to over 200,000 households in South Africa.

What does powerchina's 123-megawatt damlaagte photovoltaic project mean for South Africa?

In July of this year, POWERCHINA signed EPC (Engineering, Procurement, and Construction) and O&M (Operation and Maintenance) contracts for the 123-megawatt Damlaagte Photovoltaic (PV) Project in South Africa, which hold significant implications for local energy transition.
