

# 350kW Photovoltaic Energy Storage Container for Field Operations

## Overview

---

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.

What is ingecon Sun Storage 350tl?

Awesome power density, with up to 350 kW. It features an innovative control unit that performs a more efficient and sophisticated inverter control. The INGECON® SUN STORAGE 350TL can be parallelized in order to adjust the PCS power to different battery configurations. This way, it facilitates the design of a wide diversity energy storage systems.

How can ingecon® Sun Storage 350tl be parallelized?

The INGECON® SUN STORAGE 350TL can be parallelized in order to adjust the PCS power to different battery configurations. This way, it facilitates the design of a wide diversity energy storage systems. Furthermore, it allows augmentation so old and new batteries can be mixed without accelerating the aging of the new ones.
