36v2kw solar inverter

Overview

What is a 36kw inverter?

The 36kW is an extension of the existing 23kW and 28kW inverter line and features a dual MPPT design with up to 98.6% conversion efficiency and wide operating window of 240-950Vdc. An installer friendly and integrated wire box simplifies installation and reduces BoS costs.

What is a 36 volt inverter?

Looking for a 36 V inverter is often harder than finding a 12 V or 24V inverter since they are less common. Although not used as often, they still serve important roles in mid-range power applications. All of these higher-voltage systems should be used when powering equipment that draws over 3,000 W. Higher voltage is important for several reasons.
