

FTMRS SOLAR

40-foot Harare photovoltaic container for construction site

Overview

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

How long does it take to install a solar panel container?

Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel unit for quick installation. Folding solar panel inside the container can be unfolded or stowed in as little as 1h (the time does not vary for different photovoltaic containers).

Can Ela container deliver a building site container?

ELA Container can deliver the necessary building site containers straight to your construction site at short notice with its own vehicle fleet, including assembly and handover only when they are ready for use. Are you interested in renting or buying a building site container?

We're happy to help!.

How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?
