

FTMRS SOLAR

# 5 billion energy storage project

## Overview

---

How many energy storage projects are there in the UK?

As the battery technology prices have declined, energy storage projects in the United Kingdom have soared up in recent years. According to the Renewable UK, as of 2021, there were 1059 energy storage projects in the country, the increase in the number of energy storage projects will spur the growth of the segment during the forecast period.

How many energy storage projects are there?

There are three energy storage projects. They will be located at three existing SCE power substations: 225 MW at Springvale Substation in Big Creek-Ventura, 200 MW at Hinson Substation in the Los Angeles Basin, and 112.5 MW at Etiwanda Substation in the Los Angeles Basin.

Where are the energy storage projects being built?

The energy storage projects will be located at three existing SCE power substations: 225 MW at Springvale Substation in Big Creek-Ventura, 200 MW at Hinson Substation in the Los Angeles Basin, and 112.5 MW at Etiwanda Substation in the Los Angeles Basin.

What energy storage projects are offered?

The energy storage projects offered include direct current distribution systems, CES, anti-idling retrofit and pole utility solutions. Among the latest innovations is the extremely fast EV charging solution with a storage system for the highest efficiency and a MEG for emergency use. Headquarters: Saint Louis, US
