50kW Solar Storage Container Cooperation with Norway

Overview

Why should we invest in EV battery recycling in Norway?

Our BESS holds immense potential for contributing to Norway's burgeoning clean energy landscape. Upon installation at the EV battery recycling facility, Hydrovolt, it will play a pivotal role in optimizing energy utilization and unlocking new revenue streams.

Will a carbon transport & storage facility in Norway relaunch industrial heartlands?

The Prime Minister will visit a cross-border carbon transport and storage facility in Norway to see how the benefits of such projects for the UK will reignite industrial heartlands, create jobs, and turbocharge growth for decades to come. It comes days after the Government signed first carbon capture usage and storage (CCUS) contracts in the UK.

What is the EU-Norway energy conference?

The EU-Norway energy conference takes place regularly, usually back-to-back with the EU-Norway Energy Dialogue meetings, to discuss a broad range of energy cooperation topics.

Is Norway a key player in the transition to a more sustainable future?

Norway's proactive approach to embracing renewable energy technologies positions it as a key player in the global transition towards a more sustainable future. In the coming years, we envision expanding our presence in Norway, collaborating with local stakeholders to harness the full potential of BESS technology.
