

# **80W Solar Street Light in Manchester UK**

## Overview

---

Where can I buy LED street lights in the UK?

In addition to standard LED Street Lighting, Bri-Tek Technologies is also the UK's largest supplier in LED Solar Streetlights. Our Solar Street Lights provide LED lighting using solar panels, which provides a green footprint for many requiring a reduction in carbon saving.

Where can I use solar street lighting in the UK?

With the largest selection of solar street, car park and general area lighting systems in the UK, we have lighting for all applications. Typical applications include streets, roadways, car parks, general outdoor areas, playgrounds, storage yards, footpaths, multi use games areas (MUGA), BMX pump tracks, horse riding arenas and such like.

How much power does a solar street light need?

This solar street light can be supplied with your choice of LED power. Luminaire power ranges from 30W up to 150W, an appropriate sized power system will be supplied with the system. This state-of-the-art lighting system is ideal for streets, car parks, open areas, public areas etc. Choice of column.

How many solar street lights can save a year?

A single solar street light can save up to 2.5 tons of carbon dioxide per year. 1000 street lights is the equivalent of planting 6,600 trees a year. Why choose UK Solar Power solar street lights?

The smart controller is the brain child of a solar streetlight thus susceptible to failure.
