Overview

What is Sunway ESS battery energy storage system (BESS)?

Sunway ESS battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

How are power electronics batteries housed?

The batteries will be housed under the Power Electronics wall in an insulated wooden structure which protects them from any inadvertent metallic contact across the battery poles, whilst also having ventilation holes to dissipate heat during heavy use.
