

# American rechargeable solar container battery batch customization

## Overview

---

What makes BEAM a great battery company?

Beam is a great battery company due to its world-class battery engineering team, patented technology, and advanced U.S. manufacturing facilities. These assets enable Beam to deliver custom battery design and manufacturing ideally suited for applications where safety, energy density, and custom enclosures require high power in small spaces.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Which batteries are fully automated?

Fully automated line for large cylindrical batteries, including 32130, 32125, 32140, 22140, 40130, and 4680 models. Ideal for energy storage and heavy-duty applications. High-speed automation for increased throughput. Fully automated line for small cylindrical batteries, specifically 18650, 21700, 26650, and 32700 models.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.
