Are there any 5G base stations in Mogadishu

Overview

Is 5G a major technological milestone in Somalia?

Credit SUPPLIED MOGADISHU (HOL) — A major technological milestone was reached in Somalia on Thursday as Hormuud Telecom unveiled its 5G services, catapulting the East African nation into a new era of digital connectivity.

How many 5G base stations are there in India?

Since the rollout of 5G services in India on October 1, around 2,500 base stations are being set up every week. The Centre, on the other hand, had told companies to set up 10,000 base stations every week. Reliance Jio has taken the lead in setting up 5G base stations in India.

Why is Hormuud moving to 5G?

Hormuud's 5G service promises unparalleled speeds and reliability. It supports a range of applications, from healthcare and education to agriculture, potentially transforming everyday lives. Additionally, this move aligns with Somalia's goals of integrating more fully into the East African Community and fostering regional trade.

Does Hormuud Telecom have a 5G network?

Hormuud Telecom is optimistic about the future, citing an existing 4G network that serves 70% of the population. The company anticipates an increase in coverage, with 5G services reaching 88% of urban dwellers and approximately 70% of rural communities within a year.
