

FTMRS SOLAR

# Argentina string inverter manufacturer

## Overview

---

What is a microinverter solar system?

Typically, microinverters are “distributed” inverters. Solar PV systems with microinverters have a small inverter installed for each individual solar panel. Instead of sending energy from every panel to a single inverter, microinverters convert the DC energy to AC energy on the roof itself.

How does a string inverter work?

In a solar PV system that comes with a string inverter, all the solar panels are connected together into “strings.” When the panels generate energy, it all goes to a single inverter, which is generally placed in a residential building, in a garage, or in the basement.

Where can I buy solar equipment in Argentina?

Solarfeeds.com is home to leading solar equipment suppliers serving the Argentinian market. Just get in touch with us through our inquiry page. We've got you covered. Argentina has several ports through which you can receive imported equipment. It also boasts of a healthy logistics services framework.

Are Fiasa inverters good?

FIASA inverters are known to have good compatibility with wind turbines, solar panels, and batteries. FIASA also provides a warranty period for its inverters for approximately 6 months. TRV Eco Energy is a manufacturer and distributor of renewable energy brands from Argentina.
