Overview

What is battery energy storage systems (Bess)?

Battery Energy Storage Systems (BESS) and related solutions are critical for Asian countries to reach stated renewable energy targets. Many governments have already identified this need and are implementing or planning programmes to create favourable market entry conditions for foreign businesses.

Can battery storage be integrated into the existing power grid in Vietnam?

It is still very much early days for the BESS industry in Vietnam. The Electricity and Renewable Energy Authority (EREA) of the Ministry of Industry and Trade is bringing stakeholders together in an attempt to understand how battery storage can be integrated into the existing power grid.

Will Vietnam reach 300MW energy storage by 2030?

In the Eighth Power Development Plan (PDP 8), Vietnam set a target of developing at least 300MW of energy storage by 2030. A substantial BESS pilot project under Vietnam Electricity was launched in early 2024, but a lot of work is required for the country to reach this capacity goal.

Are Bess opportunities available in Asia?

For foreign investors, BESS opportunities are widely available in Asia. However, it is necessary to understand where each market stands and what types of tools, technologies, and services they require. Having a partner such as Asian Insiders can provide you with a detailed understanding of where your firm best fits into the equation.
