Australian energy storage projects

Overview

What is the largest battery energy storage project in Australia?

The battery energy storage system project is currently the largest battery energy storage project in Australia under construction. It is planned at Powell Creek to stabilise and store electricity generated from a six-gigawatt solar farm in the Barkly region.

What is Australia's energy storage capacity?

Australia had 2,325MW of capacity in 2022 and this is expected to rise to 22,076MW by 2030. Listed below are the five largest energy storage projects by capacity in Australia, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a complete picture of the global energy storage segment.

How much energy storage capacity will Australia have in 2022?

Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. Australia had 2,325MW of capacity in 2022 and this is expected to rise to 22,076MW by 2030.

What is the Geelong big battery energy storage system?

The Geelong Big Battery Energy Storage System is a 300,000kW lithium-ion battery energy storage project located in Geelong, Victoria, Australia. The rated storage capacity of the project is 450,000kWh. The electro-chemical battery storage project uses lithium-ion battery storage technology. The project will be commissioned in 2021.

Australian energy storage projects

Australia: The 2025 NEM Battery Energy ...

Australia has a massive pipeline of grid-scale battery energy storage projects. 16.5 GW of new battery projects could arrive in the NEM in the ...

Batteries lead in record quarter for new Australian projects

May 2, 2025 · Regulator the Australian Energy Market Operator (AEMO) has reported 20.5 GW of standalone battery projects under development at the end of March, up from 11 GW a year ...

Batteries lead in record quarter for new ...

May 2, 2025 · Regulator the Australian Energy Market Operator (AEMO) has reported 20.5 GW of standalone battery projects under development at ...

Big Battery Storage Map of Australia

1 day ago · This Big Battery Storage Map of Australia includes all big battery projects of 10MW or 10MWh and above. "Operating" includes those projects currently

Australia added 5 GWh of big batteries in Q1

Jun 2, 2025 · "Energy storage systems, such as big batteries, are a critical part of Australia's future energy mix and act as a reliable back-up system ...

Australia: Energy storage comprises 26.1GW of NEM pipeline

Oct 28, 2025 · The Australian Energy Market Operator (AEMO) has reported a record 56.6GW of new generation and storage capacity in the National Electricity Market (NEM) development ...

The Best Five Energy Storage Projects in Australia

Oct 31, 2024 · Australia has become a global leader in energy storage, driven by the need for renewable energy integration, grid stability, and the transition towards a low-carbon economy. ...

Top five energy storage projects in Australia

Sep 10, 2024 · Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. Australia had 2,325MW of ...

Energy Storage

Dec 4, 2025 · Energy Storage Equis launches 1.6 GWh renewable energy hub One of Australia's biggest battery energy storage projects has powered up with renewables developer Equis ...

Quinbrook to Build Advanced Long Duration ...

Mar 5, 2025 · Collaboration with World's Leading BESS Manufacturer Produces Breakthrough Technical and Commercial Solution to Help ...

Sixteen Energy Storage Projects Power Australia's \$3.8 Billion ...

Nov 6, 2025 · Australia's clean energy transition accelerates as the Capacity Investment Scheme secures 4.13 GW of new large-scale battery projects, boosting grid stability and sustainability.

The Best Five Energy Storage Projects in ...

Oct 31, 2024 · Australia has become a global leader in energy storage, driven by the need for renewable energy integration, grid stability, and the ...

Australia: The State of Battery Energy Storage in the NEM

Australia is home to the world's first 'big' battery: the 100 MW Hornsdale Power Reserve, constructed in 2017. Since then, investment in grid-scale battery energy storage in Australia's ...

A strong quarter for new investment in renewable energy and storage

Nov 11, 2024 · Investment in energy storage projects, critical for the growth of generation and grid stability, also continued to power ahead, with eight projects setting a new 12-month quarterly ...

Wärtsilä will deliver one of Australia's first DC ...

Apr 9, 2025 · The project will be built with Wärtsilä's cutting-edge Quantum High Energy storage technology, recognised for its advanced safety ...

Ark, Hanwha ink supply deal for 2.2 GWh ...

Mar 13, 2025 · Ark Energy, the Australian subsidiary of Korea Zinc Company, has signed a supply agreement with Hanwha Energy for the battery ...

Quarterly Investment Report: Large-scale ...

Aug 15, 2025 · Quarter 2 2025 marked another soft quarter of investment activity across Australia for both large-scale electricity generation and ...

Battery Energy Storage Systems

Sep 12, 2024 · The transition to renewable energy generation requires energy storage solutions to preserve the current system resilience, ensuring that supply matches the demand needs within ...

Quarterly Investment Report: Large-scale renewable ...

Aug 15, 2025 · Quarter 2 2025 marked another soft quarter of investment activity across Australia for both large-scale electricity generation and energy storage projects. Learn more from our ...

Energy storage

3 days ago · The Government of South Australia supports energy storage projects through programs and funding. The \$50 million Grid Scale Storage Fund and South Australia's Virtual ...

Top 7 Upcoming Battery Energy Storage System Projects in Australia

Sep 24, 2025 · Discover the largest upcoming BESS projects in Australia, from the 2.4GW Denman Battery to the Waratah Super Battery.

Big battery boom could deliver 18 GW of grid ...

Mar 30, 2025 · A new report has predicted that Australia is on the cusp of a big battery boom that could deliver 18 gigawatts (GW) of installed energy ...

Top five energy storage projects in Australia

Dec 4, 2025 · Energy Storage Equis launches 1.6 GWh renewable energy hub One of Australia's biggest battery energy storage projects has powered up with renewables developer Equis ...

Top 7 Upcoming Battery Energy Storage ...

Sep 24, 2025 · Discover the largest upcoming BESS projects in Australia, from the 2.4GW Denman Battery to the Waratah Super Battery.
