

# **Australian manufacturers of waterproof solar-powered containers**

## Overview

---

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing carbon footprint and cutting energy costs.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

.

What are the advantages of a container roof solar system?

1. Integrated Solar Array High-efficiency solar panels installed on the container roof or fold-out frames. 2. Battery Energy Storage Lithium-ion or deep-cycle batteries store energy for use day or night. 3. Inverter & Control Systems Converts solar power to usable electricity with smart monitoring. 4. Weatherproof & Secure.

Are solar containers safe?

Yes — all solar containers are built from weatherproof, lockable shipping containers. Your gear is safe from the elements and secure from unauthorised access. Can the system be expanded later on?

## Australian manufacturers of waterproof solar-powered containers

---

Our container solution with Solar power, Battery and more
