BESS a London battery storage company

Overview

What is the future of battery energy storage systems (Bess) UK & Europe?

As electrification accelerates and renewables expand across Europe, grid congestion and limited connection capacity pose growing challenges - particularly for new BESS. Our new report, Future of Battery Energy Storage Systems (BESS) UK & Europe, analyses the BESS sector across ten major UK and European jurisdictions.

How big is the UK battery energy storage industry?

At present, the UK battery energy storage industry is in a stage of rapid development. To date, the total installed capacity of battery energy storage projects in operation in the UK has reached 4GW.

Will Bess be largest on UK grid?

BESS at Thurrock Flexible Generation site expected to be largest on UK grid when commissioned. Statera Energy has secured \$512 million (GBP 395 million) of debt financing for a UK storage and flexible generation project comprising a 300 MW/600 MWh battery energy storage system (BESS) co-located with a 450 MW gas-fired plant.

Who owns lower 48 energy Bess?

LONDON – Dec. 13, 2023 – Castleton Commodities International LLC (CCI) announced today that a subsidiary has acquired a majority stake in Lower 48 Energy BESS Ltd. (L48 Energy), a company that originates, builds, owns and operates large-scale energy storage systems.
