Baghdad 2025 hybrid energy 5g base station construction bidding

Overview

What is the Baghdad Metro project?

The Baghdad Metro project has been under discussion for decades. Originally proposed in the 1980s, it was repeatedly shelved due to war, political instability, and international sanctions. Once completed, it will be the first of its kind in Iraq. The metro would span 148 kilometres (92 miles) and include seven lines and 64 stations.

Who approved the Baghdad Metro project?

Baghdad, Iraq (Metro Rail Today): On 25th July 2024, Prime Minister Mohammed Shia Al-Sudani officially approved the coalition of companies selected for the investment opportunity for the Baghdad Metro project. The announcement was made by the Prime Minister's Media Office and communicated to the Iraqi News Agency (INA).

What did the prime minister say about the Baghdad Metro project?

The Prime Minister emphasized the significance of the Baghdad Metro project, which is poised to be the largest of its kind in the region. He highlighted the importance of aligning the project with the latest international standards to meet the needs of Baghdad's residents and adapt to future developments.

How will Baghdad's new metro system benefit the city?

The metro system is expected to significantly enhance urban transportation and infrastructure in the city. Following the approval, a negotiation process will commence involving the Baghdad Municipality, the Investment Authority, and the coalition.
