Barbados single-phase uninterruptible power supply recommendation

Overview

Do you need an uninterruptible power supply (UPS)?

A power failure is more than an inconvenience—it can knock out essential equipment for hours on end. If you have important electronics that have to keep running when the power's out, you'll need an uninterruptible power supply (UPS). Many smart devices have built-in battery packs, with modern laptops packing enough cells to last a whole day.

What is a 115v power supply in Barbados?

In Barbados the supply voltage is 115V. If the appliance or its power supply are not dual voltage rated, the single voltage appliance will have to be used alongside a voltage transformer or converter to allow the appliance to work safely and properly (unless the appliance operates at 115V).

What is 3 phase UPS power protection?

3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data centers, mission-critical systems, and industrial/manufacturing processes. Replacement battery cartridges (RBC) for Back-UPS, Smart-UPS and Smart-UPS on-line.
