

# Battery pack enterprise

## Overview

---

Where is Tesla's Megapack battery made?

Tesla's Shanghai Megafactory Begins Megapack Battery Production. Source: Photo by Chad Russell via Pexels Tesla (NASDAQ: TSLA) has officially started production at its Shanghai battery megafactory, dedicated to manufacturing its high-capacity Megapack energy storage systems, according to China's state news agency, Xinhua.

Will CATL supply battery cells for Tesla megapacks?

According to Reuters, CATL is also expected to supply battery cells for the Tesla Megapacks that will be deployed for this project, signaling a collaborative yet competitive energy ecosystem. Tesla manufactures the bulk of its utility-grade batteries at its Megafactory in Lathrop, California, which churned out its 10,000th Megapack last year.

How will China's new battery power plant work?

The company added that the power plant will “effectively solve the pressure of urban power supply and ensure the safe, stable and efficient electricity demand of the city.” This project will support Beijing's national goal of adding 5 gigawatts of battery-powered storage by the end of 2025, boosting China's total capacity to 40 GW.
