

# **Berlin Solar Air Conditioning**

## Overview

---

Are solar thermal systems becoming more popular in Berlin?

Overall, a declining trend has been observed since then. In Berlin, solar thermal systems are mainly used for hot water supply and to supplement space heating. In addition, some larger solar systems are used for heating drinking water and swimming pool water; they are further used for solar air systems and air conditioning systems.

What is solarzentrum Berlin?

To start tapping more into the potential of solar energy, both in the private and the public sector, the SolarZentrum (solar centre) Berlin was opened in May 2019. It is a component of the “Masterplan Solarcity”, which works as an independent advisory centre on the topic of solar energy (SolarZentrum Berlin, only in German).

How many photovoltaic systems are there in Berlin?

Compared to solar thermal energy, there are far more photovoltaic systems registered in Berlin. As of July 7, 2023, 20,985 systems were in place, with a total installed capacity of around 230 MWp.

How many solar thermal systems are there in Berlin?

As of March 29, 2023, there were about 8,250 solar thermal systems in the State of Berlin with an installed collector surface of more than 81,000 m<sup>2</sup> (last update as of December 31, 2015 for 7,733 systems, IP SYSCON 2016). Averaged over the years, the collector surface amounted to around 10 m<sup>2</sup> per system.
