# Brasilia Energy Storage Container House Customization

## Overview

---

Can shipping containers be transformed into luxury homes?

A shining example of this innovation can be found in the burgeoning trend of transforming shipping containers into luxurious homes. In the heart of Brazil, the BH Home company has taken this concept to new heights, creating awe-inspiring container houses that combine modernity, functionality, and luxury.

What is a self-sustained container house?

São Paulo-based architecture practice Casa Container Marília - Arquitetura has built a self-sustained container house raised on metal pillars within native trees in Brazil. Named Hanging House, the house was built from recycled maritime containers and 80% of the materials are entirely recycled for this house.

What is BH's container house?

Imagine a blend of modern aesthetics and sustainable living in one stunning package. "Bh's Container House" in Matias, Brazil, stands as a testament to the fusion of innovation and comfort. Crafted from three 40-foot shipping containers, this one-story residence redefines the possibilities of container living.
