

Cambodia integrated solar container communication station wind power

Overview

Does China have a wind power project with Cambodia?

150MW! China Huadian Overseas Investment signs wind power project with Cambodia On June 26, 2025, China Huadian Overseas Investment Co., Ltd. signed an agreement with Indochina Wind Power in Cambodia for the Mondulkiri 150MW wind power project, marking a new stage of energy cooperation between China and Cambodia.

Is Cambodia a leader in Southeast Asia's green energy transition?

The 70 percent renewable energy target by 2030 not only positions Cambodia as a leader in Southeast Asia's green energy transition but also presents substantial opportunities for economic growth and job creation within the renewable energy sector.

Does Cambodia have a commitment to green energy?

A: Cambodia has already achieved a significant 62 percent renewable energy share in its current energy mix. The nation has now reaffirmed an ambitious goal to increase this to 70 percent by 2030, demonstrating an accelerated commitment to green energy.

Why should Cambodia invest in solar energy?

Investments in solar farms, wind power projects, and the necessary grid infrastructure will stimulate local economies, attract foreign direct investment, and enhance energy independence. H.E. Sepp Schellhorn, representing Austria, acknowledged Cambodia's environmental efforts and the importance of addressing climate change.
