

# **Can the battery cabinet power cord be shipped by air**

## Overview

---

Can I ship a lithium battery by air?

ONLY TRAINED HAZMAT EMPLOYEES MAY SHIP LITHIUM BATTERIES USING THIS GUIDE. Some batteries are regulated when shipped or offered for transportation. If the battery is restricted, then all applicable hazardous materials regulations must be met. This guide provides information to assist you in how to ship the battery by air.

Can You ship a battery across a country?

Many electronic products and devices contain batteries – in particular, lithium batteries, which are commonly found in laptops, smartphones, tablets, medical devices and power tools. There are regulations attached to the cross-border shipping of batteries to ensure they travel safely. These regulations vary depending on the type of batteries.

Can I ship batteries by air or sea?

The rules for shipping batteries by air or sea are becoming stricter, vary depending on individual carriers and are subject to change. We, therefore, recommend you check with your airline, courier or shipping company before you send them.

Can I ship a lithium battery cross-border?

There are regulations attached to the cross-border shipping of batteries to ensure they travel safely. These regulations vary depending on the type of batteries. Lithium batteries, for example, are classified as Dangerous Goods, so not all types of lithium batteries are accepted by DHL Express which you can check [here](#).
