# Chile makes container energy storage

## Overview

---

How many energy storage projects are in Chile?

According to a December 2023 publication on the InvestChile website, the country had 23 approved energy storage projects with a total of 3,000 MW of capacity. Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO2.

Will Chile be able to develop energy storage projects in 2024?

In 2022, Chile passed an energy storage and electromobility bill, which made stand-alone storage projects profitable, but the market is still expecting new rules on capacity payment for storage projects, which are to be approved in 2024. Chile has also put in place an auction procedure to award public land for the development of BESS projects.

Where are Chile's battery energy storage facilities located?

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative regions have facilities in operation, under construction or in the planning stage. The greatest installed capacity is found in the northern regions of Antofagasta and Tarapacá, the country's solar powerhouses.

How can Chile keep up with the changing energy demand landscape?

Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO2. In March 2024, BESS Coya, the largest battery-based energy storage system in Latin America, started operations.

## Chile makes container energy storage

---

Energy storage is a challenge and an opportunity for Chile

Aug 15, 2024 · The sharp growth in renewable energy production, and the pursuit of ambitious global targets on new capacity, bring with them a significant challenge, alongside huge ...

---

Chile makes progress on energy storage with ...

5 days ago · With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation ...

---

Chile moves on storage to 'decarbonize the night'

Sep 4, 2025 · Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022. ...

---

Chile Energy Storage Project Tender Announcement: What ...

Dec 3, 2024 · Why Chile's Latest Tender Is a Big Deal for Renewable Energy Buffs If you're in the energy storage game, Chile's 2025 tender announcement is like spotting a rare bird in the ...

---

Trina Storage Ships 1.2 GWh BESS to Chile in Largest ...

Aug 14, 2025 · Trina Storage has shipped the first 1.2 GWh batch of its self-developed Elementa 2 Battery Energy Storage System (BESS) to Chile, marking the company's largest overseas ...

---

How Energy Storage is Powering Chile's Sustainable Future

Oct 15, 2024 · The Situation Chile, a nation of approximately 20 million people, is embarking on an ambitious journey toward a more sustainable energy future. With a historically fossil fuel ...

---

Chile Already Halfway to 2 GW Energy Storage Target

Apr 29, 2025 · Chile's energy storage sector is experiencing significant growth, as outlined in the latest "Report on Projects Under Construction and Investment in the Energy Sector" by the ...

---

Chile makes progress on energy storage with 20+ approved ...

5 days ago · With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation and efficiency in Latin America.
