

# China-Europe 5G Base Station Communication

## Overview

---

How many 5G base stations are there in China?

With 4.19 million 5G base stations already operational across China, the MIIT emphasized that “promoting 5G revolution and 6G innovation will be one of the priorities” for 2025, according to a report by Chinese newspaper China Daily. Chinese main operators are China Mobile, China Telecom and China Unicom.

Who are China's 5G operators?

Chinese main operators are China Mobile, China Telecom and China Unicom. In addition to its expected expansion in the 5G field, China noted that it is also set to begin trials for 10-gigabit optical networks and enhance computing power infrastructure, reflecting the growing demand for artificial intelligence (AI) technologies.

How many 5G base stations are there in 2024?

In 2024, the number of 5G base stations in China exceeded 4.1 million. In India, 469,000 5G base stations have been deployed, while the 27 EU countries together have a total of 460,000 5G base stations. While 5G deployment is advancing rapidly in other parts of the world, Europe is lagging behind.

Does China have a 5G network?

The most high-profile Chinese presence is in Europe’s 5G mobile networks. Huawei and ZTE—China’s leading telecom equipment vendors—have been major suppliers of the antennas, base stations, and switches that power wireless networks across Europe.
