# China all in one solar system in Melbourne

## Overview

---

What's new in Chinese solar & smart energy?

Chinese solar and smart energy manufacturer unveils new all-in-one solar and battery solution for residential homes and small businesses.

Are 'all-in-one' solar inverters the future of Australia's energy mix?

With rooftop PV's contribution to Australia's energy mix on the rise, Sofar is forecasting increased demand for 'all-in-one' solutions that incorporate solar inverter with modular batteries in a single package.

How many solar panels are installed in Australia in 2024?

Rooftop solar PV installations are on track to pass a total of 25 GW installed capacity in Australia by the end of 2024 as governments move to cut the reliance on coal generation in the power grid. Residential battery installations are also on the rise with a record 57,000 systems, with total capacity of 656 MWh, installed in 2023.
