

# China distribution switchgear in Belgium

## Overview

---

Who is SGC switchgear?

SGC produces and distributes medium voltage switchgear worldwide. We are a specialist in medium voltage and supply reliable products for electrical distribution. We are a global mv manufacturer, founded in Belgium and aim to be the premium switchgear supplier in every market that we serve.

What is air insulated switchgear?

Air insulated switchgear (AIS) is an auxiliary distribution unit used to disperse the electrical energy of the main transmission unit fed by a large distribution transformer. adopts the air as the insulation media designed voltage ranging from 11KV to 36KV medium voltage power distribution system.

Where are switchgears made?

Each and every switchgear is built in this single factory in Belgium and our engineers are literally just one feet away from the production floor. Supervisors and managers are out on the floor. When a change needs to happen, they can be on the assembly line instantly implementing those changes.

What is a switchgear used for?

It includes in one unit two switches that can connect the load to either or both main conductors, and a fusible switch or circuit breaker and switch that feed a distribution transformer. This type of switchgear is used for medium-voltage power distribution, from 7.2kV to about 36kV volts.
