

Compact power station factory in Germany

Overview

What is a Faber E-TEC compact transformer station?

Our Faber E-Tec Compact transformer station with power offer state-of-the-art technology in a small space. Perfect for quick and uncomplicated installation in urban or industrial areas. Our Kompakttrafostation offers a reliable and efficient solution for your energy distribution.

What is a compact station?

One Compact station or a Compact station transformer is a prefabricated, compact electrical system that integrates transformers, switchgear and other components. It is used to convert medium voltage to low voltage and is ideal for use in various sectors such as industry, commerce and renewable energies.

How often does the Bundesnetzagentur update the list of power plants?

The Bundesnetzagentur's list of power plants and the information on new plant capacity and plant closures are updated on a regular basis. The list includes all existing power units in Germany with a net rated capacity of 10 MW or more per location.

How does a compact station work?

Our compact stations are equipped with an integrated cable basement, which also serves as a foundation. Thus, the cable entry is made underground. The foundation is coated with a special oil-resistant paint to provide the required water protection. In addition to transformer compact stations, we also offer handover compact stations.
