Companion 40ah power station in Saudi-Arabia

Overview

As its name suggests, this power pack uses a 40AH Lithium LiFePO4 battery (Lithium Ion Phosphate), producing a claimed 512Wh per charge. This battery type ensures the power pack uses close to 95 pe.

What is a companion Rover lithium 40ah power station?

The Companion Rover Lithium 40Ah Power Station belied its diminutive size and packed plenty of power to keep electrical gear charged on the recent Simpson Desert adventure. Image credit: Justin Walker Companion's Rover Lithium 40Ah Power Station offers plenty of portable electric grunt to ensure ample power for your camping adventures.

Will Saudi Arabia's new power plants save CO2?

The new power plants will provide additional energy for the country's growing population and booming economy and replace parts of Saudi Arabia's existing aging power plant fleet, some of which rely on oil as an energy source. The new plants will save up to 60 percent of CO 2 compared with oil-fueled power plants.

Is Rover lithium 40ah a good power station?

The Rover Lithium 40Ah Power Station's diminutive size belies its literal power and for those looking for a portable charging solution for their camping adventures, this unit is well worth a look. For those after more camp-side grunt, Companion's Rover 70Ah Power Station is another option, albeit with a seriously hefty jump in asking price.
