# Distribution breaker for sale in Belgium

## Overview

---

What is a circuit breaker & a switch disconnector?

Circuit breakers protect electrical cables and machines from overloads, short circuits and insulation failures. Switch disconnectors switch lines on and off, mainly to de-energize and isolate a part of the network before servicing it. ● ComPacT molded case circuit breakers (MCCB) ComPacT for cable and machine protection from 100A to 3200A.

What is a low voltage electrical distribution system?

1. What is a low-voltage electrical distribution system?

A low-voltage electrical distribution system consists of devices like panelboards, distribution boards, molded case circuit breakers, busways, and switches. These devices safeguard electrical circuits and switch electrical energy.

What are some examples of low-voltage electrical distribution products?

Some common examples of low-voltage electrical distribution products are doorbells, landscape lights, and security sensors. Schneider Electric offers safe and reliable low-voltage electrical distribution products like circuit breakers, buses, enclosures, panelboards, and switchboards. 3. How to design a low-voltage power distribution system?

What is a Powerpact molded case circuit breaker?

PowerPacT molded case circuit breakers (MCCBs) protect cables and loads rated up to 3200 A, from overloads, short-circuits, and leakage currents. High breaking capacities allow them to protect smaller lines located close to a powerful source. Space-saving PowerPacT NSXm, rated up to 160A, with breaking capacity up to 70 kA (under 400 V).
