# EU solar Tile Solutions

## Overview

---

Are solar roof tiles reshaping Europe's urban landscape?

From solar roof tiles that preserve architectural aesthetics to transparent solar windows harvesting energy without compromising natural light, these innovations are reshaping Europe's urban landscape.

What are solar roof tiles & shingles?

Solar roof tiles and shingles represent a sophisticated evolution in building-integrated photovoltaics, offering homeowners an aesthetically pleasing alternative to traditional solar panels. These innovative products seamlessly blend into existing roof designs while generating clean energy.

Who makes sunstyle® roof tiles?

SunStyle International, a subsidiary of the Akuo Group, is a French co-designer and manufacturer of solar photovoltaic roof tiles. In addition to their roofing function, the SunStyle® tiles combine power generation with a contemporary style to create buildings that meet environmental challenges.

What are solar roof tiles & how do they work?

These innovative products seamlessly blend into existing roof designs while generating clean energy. Unlike conventional solar installations, these tiles replace standard roofing materials entirely, serving both as weather protection and power generators.
