## Overview

---

Is there a market for large-scale battery storage in Central Europe?

In many countries in Central Europe, the market for large-scale battery storage is growing rapidly. The drivers are diverse, but there are still obstacles, as Eliza Stefan, Sales Manager BESS for Central & Eastern Europe, Jinko EES, points out.

How does Poland support large-scale battery storage?

Poland is also relying on capacity market auctions, but also on tax incentives, to promote large-scale battery storage. Up to 45% of project costs of utility-scale storage are covered by grants in Hungary, in addition to a CfD scheme and modern grid connection rules.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO<sub>4</sub>) combined with an intelligent 3-level battery management system (BMS);.
