

# Energy storage investment project in Penang Malaysia

## Overview

---

Is Malaysia ready for energy storage?

(Photo: iStock) Malaysia is rapidly expanding solar and other intermittent renewable generation, creating strong momentum for energy storage. The country's first four large-scale grid-connected storage projects have attracted significant interest, with more than 20 companies submitting over 30 proposals.

How much will EVE Energy Invest in Malaysia?

Chinese battery maker Eve Energy plans to invest up to RMB 8.65 billion (\$1.2 billion) in a new energy storage battery project in Malaysia, as the company continues expanding its international manufacturing footprint. The announcement was disclosed in a filing to the Shenzhen Stock Exchange on June 27.

Who is Eve energy storage Malaysia?

The project will be executed by its wholly-owned subsidiary in Malaysia, Eve Energy Storage Malaysia Sdn Bhd, located in Kulim City, Kedah State, as an expansion of its existing production facility. The construction period will not exceed 2.5 years, with a land area of about 484,000 square meters.

Will Eve energy build a new battery project in Malaysia?

Eve Energy plans to build a new battery project in Malaysia to further expand its footprint in Southeast Asia. The Chinese battery giant plans to build a project in Malaysia for the production of energy storage batteries, with an investment of no more than RMB 8.65 billion (\$1.2 billion), according to a stock exchange announcement on June 27.
