

# **Energy storage project successfully delivered**

## Overview

---

What is an energy storage project?

An energy storage project is a cluster of battery banks (or modules) that are connected to the electrical grid. These battery banks are roughly the same size as a shipping container. These are also called Battery Energy Storage Systems (BESS), or grid-scale/utility-scale energy storage or battery storage systems.

Where are the energy storage projects being built?

The energy storage projects will be located at three existing SCE power substations: 225 MW at Springvale Substation in Big Creek-Ventura, 200 MW at Hinson Substation in the Los Angeles Basin, and 112.5 MW at Etiwanda Substation in the Los Angeles Basin.

Who has delivered the battery energy storage project?

Audi, Etogas and MAN Energy Solutions have delivered the battery energy storage project. Additional information The Stuttgart-based plant manufacturer ETOGAS GmbH (formerly SolarFuel) has timely developed and built the world's largest power-to-gas plant. Customer and operator is the Audi AG.

What is BYD energy storage & SEC doing?

A milestone in global energy storage BYD Energy Storage and SEC have signed a landmark contract for what is now the world's largest grid-scale energy storage project, with an initial capacity of 12.5GWh. Combined with a previously delivered 2.6GWh project, the total collaboration has reached a record-breaking 15.1GWh.

## Energy storage project successfully delivered

---

EVE Energy achieves world's first 400MWh energy storage project

Sep 19, 2025 · EVE Energy has set a new industry milestone, with the world's first 400MWh energy storage project using 628Ah ultra-large cells successfully connected to the grid at ...

---

The World's First 600Ah+ Large Energy Storage Battery Project

Sep 22, 2025 · On 8 September, the world's first 400MWh energy storage power station based on 628Ah large energy storage batteries achieved successful one-time power delivery. Located in ...

---

World's Largest Grid-Forming Energy Storage Project Successfully

As the provider of the energy storage integrated solution, Kehua delivered a grid-forming energy storage system that showcased strong technical advantages and project management ...

---

BYD Energy Storage Signed World's Largest Grid-scale

SHENZHEN, Feb. 17, 2025 (GLOBE NEWSWIRE) -- Recently, BYD Energy Storage and Saudi Electricity Company successfully signed the world's largest grid-scale energy storage projects ...

---

HyperStrong Retains Top Three Position in S&P Global Energy Storage

2 hours ago · Upon completion, the project will become one of Europe's major energy storage facilities, providing critical support for the region's energy transition. In the Americas, ...

---

BYD & SEC: World's Largest Grid-Scale Energy Storage Project

Jun 9, 2025 · A milestone in global energy storage BYD Energy Storage and SEC have signed a landmark contract for what is now the world's largest grid-scale energy storage project, with an ...

---

HyperStrong Ranks Top Three in Global BESS Report

14 hours ago · In the America HyperStrong has successfully delivered over 420 MWh of energy storage projects in the United States, focusing on grid-side applications. These systems ...

---

China powers up nation's largest standalone battery storage project

3 days ago · A 500 MW/2,000 MWh standalone battery energy storage system (BESS) in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction ...

---

Over 4500MWh! East Energy Storage Projects Delivered ...

Since 2025, East Energy Storage has successfully delivered several 100-megawatt-level energy storage projects, including the CNNC New Energy Source-Grid-Load-Storage Integrated ...

---

CEEG Successfully Delivers the World's Largest 500MW Energy Storage Project

Sep 16, 2025 · This project stands as a model of successful international cooperation and reflects CEEG's strong commitment to advancing green energy development in the Middle East and ...

---

EVE Energy achieves world's first 400MWh ...

Sep 19, 2025 · EVE Energy has set a new industry milestone, with the world's first 400MWh energy storage project using 628Ah ultra-large cells ...
