

# **Extra-large capacity mobile energy storage container used in water treatment plants in Peru**

## Overview

---

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a power plant container?

Fully equipped container designed for a power plant. The water is used for cooling water (8 m<sup>3</sup>/h), boiler water for high pressure steam turbine (6 m<sup>3</sup>/h) and drinking water. The container is insulated and equipped with door-in-door, light, and air-conditioning. The container includes the following plants:.

What is a water treatment plant in container?

A water treatment plant in container is a complete solution, assembled and tested off-site at our factory. The solution is complete with all internal piping and wiring factory-built. This makes the plant ready for use when supplied, which financially can be an advantage, also in relation to the reduced amount of time used for deployment.

Can a mobile water treatment plant be used in a container?

This customer needed to upgrade the existing water treatment plant, but no free space at site was available. Mobile water treatment in a container was the solution of choice. Cooling water treatment for a chemical company in Russia. The company chose a plug-and-play 8' container installation for the water treatment.

## Extra-large capacity mobile energy storage container used in water

---

How Alfen's new energy storage solution maximises capacity ...

Feb 11, 2025 · Higher energy density: A reengineered battery container design increases storage capacity while keeping the footprint compact. The container integrates modular battery racks, ...
