

# **Financing Plan for a 200kW Solar Container in Cuba**

## Overview

---

How much solar energy is installed in Cuba?

The installed solar energy generating capacity in Cuba is around 3 megawatts, or 0.07 % of the total installed capacity. And there are several projects underway to increase this percentage, although costs remain a serious obstacle. Increase in energy production from solar devices in Cuba since 2001:.

What types of energy systems are covered in Cuba?

Coverage includes generation and storage systems, renewable energy installations (hydropower, solar PV, wind, biomass, ocean, and solar thermal), electrical grid history and characteristics, and an analysis of Cuba's electrical energy resiliency.

How much does a 1 KW generator cost in Cuba?

At state-run Copextel retail stores, a basic 1 KW generation module costs 2,551 MLC, pegged to the US dollar. The average salary in Cuba is 4,648 pesos (approximately \$38.70) based on the official exchange rate of 120 pesos to one dollar.

Is investing in Cuba becoming more difficult?

Investing in Cuba is becoming increasingly difficult," commented user Horus on an article about the issue published on Cubadebate, the country's most-read state news portal. The law could discourage entrepreneurship in small industries or productive areas that typically consume significant electricity.

## Financing Plan for a 200kW Solar Container in Cuba
