Fixed unit price of Latin American folding containers

Overview

Are global container shipping rates still 46% lower than last year?

Global container shipping rates are still 46% lower than they were in November last year. Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025.

What are container shipping costs?

Container shipping costs consist of multiple components beyond the base freight rate, such as port charges, taxes and insurance. Here is an overview of these: The base freight rate serves as the foundation for shipping costs, with various surcharges and adjustments applied based on fuel prices, seasonal demand, and market conditions:.

How much does a 40ft container cost?

Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025. Between now and the end of the year, container shipping prices will likely remain soft particularly if the current ceasefire between Israel and Palestine enables more shipping traffic to flow through the Suez canal.

How does container shipping cost structure work?

The combination of base rates, surcharges, port fees, taxes, and insurance provides a comprehensive view of the total cost structure. Understanding container shipping costs is essential for businesses in North America looking to expand their reach into Latin America.
