Garden Solar Panel System

Overview

How much do garden solar panels cost?

Garden solar panels function like traditional solar panels but are ground-mounted instead of roof-mounted and placed in your garden. They are typically more expensive than regular solar panels, costing approximately £11,700 for a 4kW system, but can help you save £1,304 annually on electricity costs.

How much do solar-powered garden lights cost?

Solar-powered garden lights usually cost between £30 and £200 Large roof-mounted solar panels cost a lot of money, and not everyone has the finances or roof-space for them. Luckily, there are lots of different ways to use solar panels in your garden, and most aren't that expensive.

Can you use solar panels in a garden?

As you can see, there are lots of ways to use solar panels in a garden. You can get anything from small, affordable solar lights, to large ground-mounted solar panel systems that can power a house. Either way, using solar panels is a great way to save on electricity bills, and lower your carbon footprint in the process.

How much do ground-mounted solar panels cost?

Ground-mounted solar panels are the most expensive option. A 10 panel system large enough to power an average three-bedroom house will cost around £7,026 to buy an install. Take a look at the table below to see how much ground-mounted solar panels cost depending on the size of the property.
