Georgia energy storage power station bans lithium batteries

Overview

Does Georgia Power have a new battery energy storage system?

ATLANTA, Aug. 29, 2024 /PRNewswire/ -- Georgia Power has identified locations for 500 MW of new battery energy storage systems (BESS) authorized by the Georgia Public Service Commission (PSC) earlier this year as part of the company's 2023 Integrated Resource Plan (IRP) Update.

What type of energy does Georgia Power use?

Committed to delivering clean, safe, reliable and affordable energy, Georgia Power maintains a diverse, innovative generation mix that includes nuclear, coal and natural gas, as well as renewables such as solar, hydroelectric and wind.

Who is Georgia Power?

Georgia Power is the largest electric subsidiary of Southern Company (NYSE: SO), America's premier energy company. Value, Reliability, Customer Service and Stewardship are the cornerstones of the company's promise to 2.7 million customers in all but four of Georgia's 159 counties.

What is Georgia Power doing in 2022?

The company is also developing the 265 MW McGrau Ford Phase I BESS project, approved in the 2022 IRP, and expects it to enter service by the end of 2026. To learn more about how Georgia Power is meeting the needs of customers through a diverse, balanced energy portfolio, visit
