Havana Gigawatt Energy Storage Project

Overview

What's going on with Cuba's power supply?

The dire state of Cuba's power generation infrastructure, largely dependent on oil from Venezuela, has seen the country of 10 million people struggle with near daily outages in some regions in recent months. In some provinces, electricity access is limited to a few hours a day.

Why is Cuba struggling to pay for electricity?

Under a US trade embargo since the 1960s and battling its worse economic crisis in decades, the country also uses floating electric plants rented from Turkish companies, and generators fueled by crude oil Cuba is struggling to pay for.

How many hours a day can you get electricity in Cuba?

In some provinces, electricity access is limited to a few hours a day. Cuba's eight outdated thermoelectric plants, most of them online since the 1980s and '90s, suffer frequent breakdowns.

Havana Gigawatt Energy Storage Project

The Cuban government promises solar ...

Mar 24, 2025 · The plan envisions one thousand megawatts of solar energy by 2025, but without installed batteries, which prevents meeting nighttime ...

Cuban Leader Celebrates Opening of First ...

Feb 21, 2025 · This Friday marked the inauguration of Havana's first Chinese-built solar park, as Cuban leader Miguel Díaz-Canel and ...

They put the first solar park into operation in Cuba to ...

Feb 27, 2025 · According to the Ministry of Energy and Mines, this project seeks to alleviate the tension caused by the **lack of electricity**. The fragility of the Cuban electrical system The ...
