# High-Temperature Resistant Folding Containers for Construction Sites

## Overview

---

What are construction containers used for?

These type of containers, which are used as work offices, dormitories, dining halls, kitchens and security sites in energy, mining, oil, housing and many other construction sites, offer a fast and practical solution to construction companies.

What is a construction site container?

Herocont offers turnkey solutions for modular and prefabricated buildings, such as furniture and industrial kitchen equipment! Construction site container or construction container is a modular container, resistant to harsh conditions in various construction sites.

Where can I buy shipping containers for construction?

Shipping containers for construction are available through Mobile Modular Portable Storage. Rent or buy these containers for easy, secure job site storage.

What are the different types of container models?

Container models vary depending on the size and needs of the construction site. Additionally, these containers can be used as dining hall containers, dormitory containers, office containers and social area containers on construction sites.
