# Hong Kong Communications 5g base station

## Overview

---

How many radio base stations are there in Hong Kong?

3. At present, mobile network operators (“MNOs”) have installed around 17 000 radio base stations (“RBS”) across 18 districts in Hong Kong, including 33 RBS situated in major country parks as well as rural/remote areas.

Does Hong Kong have a 5G network?

The introduction of 5G technology has revolutionized mobile communications worldwide, and Hong Kong is no exception. To ensure the integrity and reliability of its telecommunication infrastructure, the Hong Kong Communications Authority (OFCA) regulates very rigorous standards applicable to all radiocommunications equipment.

How can CA support the development of 5G services in Hong Kong?

Timely supply of radio spectrum to the industry is a major focus of CA’s work to facilitate the continued development of 5G services in Hong Kong.

What frequency bands are allowed for NR base stations in Hong Kong?

For instance, HKCA 1082 prescribes frequency bands permitted for NR Base Stations in Hong Kong, e.g., n78 (3300-3800 MHz) and n79 (4400-5000 MHz), to restrict deployments within OFCA’s holdings of licensed spectrum.
