How long is the warranty period for Sunshine solar container battery

Overview

What is a solar battery warranty?

A solar battery warranty is a manufacturer's promise that the battery will perform as expected for a certain number of years, cycles, or total energy throughput — whichever comes first. A good warranty helps reduce your financial risk by covering repair or replacement if the battery fails under normal usage.

Why do solar panels have a shorter warranty period?

Unlike panels that sit on your roof and soak up the sun, inverters and batteries are actively working all day. That extra effort is why they tend to have shorter warranty periods. · Inverters act as the brain of your solar system.

Are solar panels covered under a warranty?

No. Warranties generally don't cover: These exclusions are why many Australians also choose to insure their solar system. Check with your home insurance provider or solar retailer about adding battery coverage. Even if your warranty ends or is denied, you may still have rights.

What happens if a solar battery warranty disappears?

The Australian Consumer Law states that your warranty claim is with the importer or the local office of the brand. But if they disappear, you may be left without support. To reduce this risk: You can learn more about installer and retailer responsibilities via Solar Accreditation Australia. Do Solar Battery Warranties Cover Everything?
